PAST PERFORMANCE

Air Force Invisible Wounds Interim Medical Review Panel Services

Provides a centralized Interim Medical Review Panel (IMRP) to ensure that Total Force Airmen recognized as meeting specific IW criteria and who are pending entry into the Integrated Disability Evaluation System (IDES) process have been properly diagnosed, treated, and given an adequate course of therapy for IW conditions prior to referral to the Informal Physical Evaluation board (IPEDB).

Air Force, Air Force Centralized Credentials Verification Office (AFCCVO)

Provides a turn-key operation for credentialing support to the Air Force Medical Service (AFMS) by gathering required credentials, performing Primary Source Verification (PSV) of applicable credentials, conducting databank queries, and entering all data into the Centralized Credentials Quality Assurance System (CCQAS).

Army, Defense Health Agency, SRTSWeb / Surgical Scheduling System (S3)

Performs application programming and the expertise to design, develop, modify, upgrade, test, troubleshoot, implement, and sustain as required. We document and control all code changes using government-supplied software. S3 - Performs application programming and the expertise to design, develop, modify, upgrade, test, troubleshoot, implement, and sustain as required.

Army, Joint Biological Agent Identification and Diagnostic System (JBAIDS) Provides support and training services for the JBAIDS and Next Generation Diagnostic Systems (NGDS) and, Common Analytical Laboratory System (CAL) Training Programs, and any related programs under the auspices of Molecular Diagnostics Branch, Academy of Health Sciences (AHS), U.S. Army Medical Dept. Center & School (AMEDDC&S).

Army Medical Command (MEDCOM), RsBux / Financial Management Information System (FMIS)

Supported Web maintenance, development and hosting for a budgeting application. FMIS – Provided software engineering support to develop, modernize, sustain, integrate, and maintain current and future development requirements for intranet and mobile applications.

Army Medical Command (MEDCOM) HQs, Onsite IM/IT System, Cable Administration, and VTC Facilitation Support

Perform services to assist with planning, and to deploy and maintain IT to enable MEDCOM personnel to operate from various locations. The Information Management/ Information Technology (IM/IT) services include the following: system administration of windows based enterprise servers, facilitate the interoperability of unique applications with other applications, administration of operating systems software; windows based enterprise and standard editions, database administration, Active Directory administrative functions, control and access of data storage, space allocation, VTC facilitation support, and moves, adds and changes for telephones.

National Guard, Georgia Army National Guard

Deliver overall Contract Management, Administrative Management and General Management Consulting Services for the Georgia Army National Guard (GAARNG), Recruiting and Retention/G1 (R&R/G1) mission for several locations throughout Georgia.

Naval Information Operations Command (NIOC)

Project support in Information Warfare (IW), Information Operations (IO), Computer Network Operations (CNO), Tactical Cryptologic System initiatives and Maritime & Service Cryptologic Architecture development.

USAF Wilford Hall, Endocrinology Diabetes Center of Excellence

Provides Ancillary Medical Service Providers at the Wilford Hall Ambulatory Surgical Center. The team provides subject matter expertise supporting Health Care practitioners (HCPs) at nationwide Air Force Military Treatment Facilities (MTFs) that care for over 50,000 active duty AF service members, retirees, and their family members with diabetes.

Department of the Army Chief of Chaplains (DACH), Strong Bonds

Provide administrative program management support by compiling annual training requirements, after-action reports, end of training surveys, tracking invoices; monitoring local program execution w/subordinate level program managers, provide analytical assistance for program process review, maintain databases, and coordinate/provide admin support for bi-monthly Strong Bonds Instructor Certification Training.

CDC_TECPHI

In 2018 Bestica was awarded as the Prime contractor to provide the Center for Diseases Control and Prevention CDC, Grant Evaluation Services to the Tribal Epidemiology Centers Public Health Initiative (TECPHI). Bestica's evaluation support contributes to the efforts for reductions in chronic diseases and risk factors, reductions in disparities for AI/AN health outcomes, and improvements in overall health and wellness through increased public health infrastructure and capacity.

Defense Institute for Medical Operations (DIMO) Global Health Program Support

Bestica provided necessary oversight in the creation of in-resident and mobile training courses, reflecting global health security. Focus on biosecurity, biosafety (infection control), infectious disease threats, and disaster planning. Bestica's staff ran and successfully executed over 50 Global Missions on an annual basis by providing Translation and Interpretation services, Curriculum and Database Management, Mission Specialist and Senior Academic Administrator Support.

DCMA – eDRMS

Bestica provides support and maintenance for all capabilities under the Collaboration portfolio, to include the Defense Contract Management (DCMA) enterprise wide web-based application environment known as DCMA 360, Task Management Tool (TMT), and Electronic Document Records Management System (eDRMS). Bestica coordinates, communicates, and prioritizes day- to-day operations with the Program Manager and other DCMA staff to enable the effective sustainment, maintenance, testing, and training of software and related products. Bestica also collaborates and coordinates efforts with DCMA Government personnel and other supporting DCMA contractors in order to complete assigned tasks.
