

Company Overview

Bestica was founded in 2005 as an IT service provider, and since then we have expanded our capabilities to include DoD Medical Support Services, SharePoint Subject Matter Experts, Program Analysts, Administrative Personnel, and Application Development. Our company is a **Small Disadvantaged Business (SDB)**. Bestica currently has over 15 years of experience working with the US Government, the State of Texas, and Fortune 500 companies by successfully creating and delivering customized service experiences to government and commercial agencies throughout the U.S.

Our hallmarks are outstanding performance and pricing which is fair and equitable to the Government while properly compensating our contract employees to optimize recruitment and retention.

Bestica maintains the following certifications: ISO 9001, ISO 14001, ISO 20000-1:2018, and ISO 27001:2018.

Currently appraised at level 3 of the CMMI Institute's Capability Maturity Model Integration. What does this mean? **We maintain high standards.**

Our organization's processes are well characterized and understood and are described in standards, procedures, tools, and methods. We maintain an Active **Top-Secret Facility Clearance** in support of our Government customers.

Selected IT Projects

Information Management/Information Technology, Telecommunications, and Video Teleconferencing Support

Perform services to assist with planning, deploying, and maintaining IT to enable MEDCOM personnel to operate from various locations. The Information Management/ Information Technology (IM/IT) services include the following: system administration of windows based enterprise servers, facilitating the interoperability of unique applications with other applications, administration of operating systems software; windows based enterprise and standard editions, database administration, active directory administrative functions, control and access of data storage, space allocation, VTC facilitation support, and moves, adds and changes for telephones.

Electronic Document & Records Management

Bestica provides support and maintenance for all capabilities under the Collaboration portfolio, including the Defense Contract Management Agency (DCMA) enterprise-wide web-based application environment known as DCMA 360, Task Management Tool (TMT), and Electronic Document Records Management System (eDRMS). Bestica coordinates, communicates, and prioritizes day-to-day operations with the Program Manager and other DCMA staff to enable the effective sustainment, maintenance, testing, and training of software and related products. Bestica also collaborates and coordinates efforts with DCMA Government personnel and other supporting DCMA contractors in order to complete assigned tasks.

Web & Supply Chain Services

Perform application programming and the expertise to design, develop, modify, upgrade, test, troubleshoot, implement, and sustain, as required. We document and control all code changes using Government-supplied software. S3 - Perform application programming and the expertise to design, develop, modify, upgrade, test, troubleshoot, and implement.

Financial Management Systems

Support Web maintenance, development, and hosting for a budgeting application. FMIS - Provide software engineering support to develop, modernize, sustain, integrate, and maintain current and future development requirements for intranet and mobile applications.

Information Operations

Provide project support in Information Warfare (IW), Information Operations (IO), Computer Network Operations (CNO), Tactical Cryptologic System initiatives, and Maritime & Service Cryptologic Architecture development.

Program Administration

Provide administrative program management support by compiling annual training requirements, after-action reports, end-of-training surveys, tracking invoices; monitoring local program execution with subordinate level program managers, provide analytical assistance for program process review, maintain databases, and coordinate/provide admin support for the U.S. Army's Chaplain-led Strong Bonds Instructor Certification Training designed to strengthen the Army Family.
